

Compliance Assurance

Working collaboratively with Pride Aged Living ensures a higher standard of clinical practice.

Our audit methodologies support you in assessing your level of compliance with regulated standards. We help you develop compliance assurance protocols using mock audits to test your compliance programs against aged care quality standards.

With identified opportunities to improve your governance systems and your key personnel empowered and supported by our expert consultants, regulation standards are exceeded and consumer care excellence is achieved.

Through our simulated audits, you can actively:

Assess the risk of non-compliance with the Aged Care Quality Standards.

Identify opportunities to strengthen organisational governance systems.

Affirm the attestations of the executive.

Demonstrate appropriate risk management by governing bodies.

Take pride in your success

We support aged care providers with:

Key Risk Audit

Using proven audit methodologies, we assess your risk of non-compliance with Aged Care Quality Standards, focusing on key areas at risk of non-compliance.

Strengthened Quality Standards Audit

We identify opportunities to strengthen your organisational governance systems and assist providers through the transition to strengthened quality standards.

Top 10 Non-Compliance Audit

We evaluate your compliance programs against the known top 10 non-compliances in the sector. If this audit identifies systemic issues, it can be upgraded to our Key Risk Audit service.
